Chapter 1

Introduction

1.1 About the author

The entirety of the project, including the design, planning and implementation is maintained by the author, @mariolfh on Github [1]. As a computer science graduate, getting into contact with all sort of concepts and ideas was something marvelous. So, in the hopes of having several important and key tools at hand, mixed with a love for terminals, made the original thought that would turn into this project.

1.2 Objectives

1.3 Technologies

Hello! [1].

Chapter 2

Functionalities

Hi! [2]. I don't know your name.
